

Monday 9/20

Hi, Ed!

Your visit short but charming. Sorry I bothered you about Y-44; we had this here. But we lack, and could currently use Y-38 and Y-43 if you have these.

You sent me a list a year ago of W- cultures in your cultures. The numbers began with W-757, however, and I am certain you did once get some others. I have no record of the Y- E. coli's you're likely to have, and it could save me some future anxiety to get such a list whenever it would be convenient for you. The ~~Y's~~ Y's preserved (I hope) here are:

9, 10, 40, 44, 46, 51, 53, 70, 105, 109, 117, 118, 120, 132, 133; 138, 161.  
Also, 58, 58-161, 58-278, 58-3214, 58-5417, 679-680,

*Josh.*
